PRODUCT PROMISE

Glade is the hydration pack for winter sports enthusiasts. Available in two volumes, the slim profile provides safe lift riding and stable carry whether skiing, snowboarding, fat biking, cross-country skiing or snowshoeing. Ensuring hydration remains a top priority, these packs are equipped with a 2.5-liter reservoir and insulated hose to keep water flowing in cold conditions.

CARRY

SNOW-SHEDDING MATERIAL TO
REDUCE ICE/SNOW BUILDUP

ATILON FRAMESHEET

REMOVABLE WEBBING HIPBELT

SUSPENSION

+ Atilon framesheet

BACKPANEL

+ Snow-shedding material to reduce ice/snow buildup

HARNESS

+ Removable webbing hipbelt

SIZING / FIT

HARNESS FIT

The harness straps should wrap fully around the shoulders with no gaps between the pack and back. The padded part of the harness straps should end at 2⁷/₅ cm or more below the armpits without topping out and the sternum strap adjusted to approximately 2⁷/₅ cm below the collarbone.

FEATURES

SCRATCH-FREE GOGGLE POCKET

12L / 5L

- + The Glade features a scratch-free fleece lined pocket at the top of the pack. These pockets are perfect for goggles, sunglasses and other fragile gear.

DIAGONAL SKI CARRY

12L

Diagonal ski carry utilizes one side of the bottom front panel webbing and secures on the opposite side of the top front panel webbing.

- 1 Loosen lower webbing via the slider buckle, slip ski tails into position beneath the reinforced area of the strap and re-tension strap securely.
- 2 Unclip the top carry straps via the glove-friendly buckle beneath the protective fabric loop, place upper portion of ski beneath the reinforced area of the opposite strap and reattach the buckle.
- 3 Use the cam-locking slider buckle and webbing on the side of the pack to tension the skis into place for stable carry. Reverse to remove skis from the pack.

INSULATED HYDRATION

12L / 5L

- + An internal sewn-in hydration sleeve with reservoir hanger and a fully insulated, dual-zippered harness router with a hypo-allergenic stretch garage provides ice-free hydration.
- + Load your hydration reservoir into the sewn-in reservoir sleeve via the backpanel entry and route the hose through the port into the right insulated shoulder harness using the hook and loop attachment to secure.
