LOAD RANGE

30-45 lbs
14-20 kg

UNIQUE FEATURES

+ Floating top lid
+ Large front panel U-zip access to main compartment

*Volumes available in select international markets

SHARED FEATURES

1. AirScape backpanel with adjustable harness
2. Top lid with external zippered pocket and under lid zippered mesh pocket
3. Dual ice tool attachments
4. External reservoir sleeve
5. Dual upper reverse StraightJacket side compression straps
6. Dual lower side compression straps
7. Zippered sleeping bag compartment with floating divider
8. Removable sleeping pad straps
9. Stow-on-the-Go trekking pole attachment
10. Front panel hybrid shove-it pocket
11. Dual stretch mesh side pockets
12. Zippered hipbelt pockets
13. Dual front panel daisy chains
+ Integrated removable raincover

FABRIC

MAIN
210D x 630D Nylon Dobby

ACCENT
420HD Nylon Oxford

BOTTOM
500D Nylon Packcloth

### UNIQUE FEATURES

+ Side zipper access to main compartment
+ Full-length vertical zippered side pocket
CARRY

1 LIGHTWIRE SUSPENSION
   + 3.5 mm LightWire peripheral frame effectively transfers the load from harness to hipbelt
   + Ation framesheet spreads load across the entire backpanel to the peripheral frame

2 AIRSCAPE BACKPANEL
   + Mesh-covered ridged foam allows maximum ventilation while keeping the load close to the body

3 SPACERMESH HARNESS AND HIPBELT
   + Soft edgeless padded mesh offers a soft, breathable contact surface and large load support
   + Adjustable sternum strap with rescue whistle

SIZING / FIT

HOW TO MEASURE YOUR BACK FOR YOUR PACK

1 FIND Iliac Crest (Top of hip bone)
2 ON BACK OF NECK, FIND C7 VERTEBRAE
   Touch your chin to your chest and feel for the large protruding bone at the base of your neck
3 MEASURE FROM C7 VERTEBRAE TO THE ILIAC CREST TO DETERMINE TORSO LENGTH

KESTREL - MEN’S
   SIZE TORSO
   S/M 16-20” / 40.5-51 cm
   M/L 19-23” / 48-58.5 cm

KYTE - WOMEN’S
   SIZE TORSO
   WXS/S 13-17” / 33-43 cm
   WS/M 16-20” / 40.5-51 cm

WOMEN’S-SPECIFIC FIT
   + Shorter torso length
   + Narrower, shorter harness with curves designed to accommodate most women’s necks, shoulders and chests
   + A hipbelt designed to wrap naturally around the curve of a woman’s hips, offering better load stabilization and support

ADJUSTING HARNESS
   M - 66L / 46L / 36L
   W - 68L / 48L / 38L

   1 Completely loosen the pack’s load lifters and harness straps.
   2 Locate the arrow icon at the top of the ridged foam backpanel.
   3 Slide a hand between backpanel and shoulder harness to pull apart the hook-and-loop closure.
   4 Slide the shoulder harness up or down to correspond to the appropriate torso length.
   5 Firmly press down on the ridged foam backpanel to re-engage hook-and-loop closure.
SIZING / FIT

1 POSITION THE PACK
- Completely loosen the pack’s hipbelt, harness and load-lifter straps.
- Load the pack with 10-20 lbs/4-9 kg of gear.
- Put on the pack and make sure that the hipbelt is centered and rests over the hipbone. The hipbelt padding should sit halfway above and below the hipbone.

2 BUCKLE HIPBELT
- Buckle and evenly tighten the hipbelt using Osprey’s cross body ErgoPull.
- The padding of the hipbelt should wrap around the hips with approximately 1-3” / 2.5-6 cm of webbing between the buckle and the hipbelt when tightened.

4 TIGHTEN HARNESS
- Tighten the shoulder harness straps to tension by pulling them down and back.

5 TIGHTEN LOAD LIFTERS
- Tighten the load lifters to tension by pulling them up and forward. This will pull the pack close to body to help stabilize the load.

6 ADJUST HARNESS
- The harness straps should wrap fully around the shoulders with no gaps between the pack and back.
- The padded part of the harness straps should end 1-2” / 2.5-5 cm below the armpit. And the harness should have 1-2” / 2.5-5 cm of webbing remaining.

7 TORSO LENGTH
- Locate the harness yoke – this is where the harness straps come together near the base of the user’s neck. Locate the C7 vertebra – the large protruding bone at the base of the neck. The yoke should be 1-2” / 2.5-5 cm below the C7 vertebra.
- If the torso length is too short or tall, adjust the torso length of the pack. [See Adjustable Harness instructions in this manual.]

8 STERNUM STRAP
- Adjust the sternum strap to approximately 2”/5 cm below the collarbone; buckle and tighten to tension.
FEATURES

EXTERNAL RESERVOIR SLEEVE
M - 68L / 58L / 48L / 38L  W - 66L / 46L / 36L
An external reservoir sleeve is located behind the shoulder harness, allowing easy loading/unloading of a hydration reservoir.
  + Placing your reservoir inside the sleeve helps provide proper weight distribution when carrying your pack
  + The loop with buckle ensures proper vertical orientation and stability.
  + Elasticized routing straps on right or left side of the pack’s harness hold the reservoir hose in place
  + Compatible with any reservoir up to 3L

RAINCOVER
M - 68L / 58L / 48L / 38L  W - 66L / 46L / 36L
1 Locate raincover icon near the base of pack.
2 Remove raincover from compartment and slip it over the top and bottom of the pack.
3 Tighten the cord lock at the bottom of raincover to tension raincover into place.
4 To detach raincover, unfasten toggle from cord loop.
Tip: To prevent mildew, allow raincover to dry entirely before storing.

STOW-ON-THE-GO TREKKING POLE ATTACHMENT
M - 68L / 58L / 48L / 38L  W - 66L / 46L / 36L
Osprey’s Stow-on-the-Go trekking pole attachment is designed to quickly stash and carry trekking poles without taking off the pack.
1 Adjust the trekking poles to their minimum length. [optional]
2 Locate the elasticized loop on the lower left side of pack. While pulling the loop out from the pack, insert the basket end of the trekking poles into the loop.
3 On the left harness strap, locate the trekking pole icon. Pull up on the cord to open, place pole handles in the loop and tighten with the cord lock to secure.
4 Reverse these steps to remove.

ICE AXE ATTACHMENTS
M - 68L / 58L / 48L / 38L  W - 66L / 46L / 36L
1 Slide the ice ax shaft through the top of one of the ice tool loops and flip the shaft up toward the top of the pack.
2 Loosen the upper side compression strap and unthread it from the daisy chain.
3 Place the shaft of the pole under the seam of the front panel pocket and upper compression strap.
4 Re-thread the compression strap through the daisy chain and buckle into place. Tighten the compression strap to secure the ice axe.
5 Reverse above steps to remove.
FEATURES

DUAL SIDE COMPRESSION STRAPS WITH REVERSE STRAIGHTJACKET
M - 68L / 58L / 48L / 38L
W - 66L / 46L / 36L

Upper and lower compression straps provide added stability when the pack is not full or offer additional attachment points for carrying gear on the outside of the pack.

Side Compression
- Thread the compression straps through the top loop of daisy chain. Buckle the strap to it’s coordinating buckle on the side of the pack near the frame. Tighten compression straps as desired.

Reverse Straightjacket Compression
- Thread the side compression straps through the top loop of the daisy chain. Cross the straps over the top loop of the daisy chain and to the front of the pack. One side will have a female buckle and the other strap will have a male strap allowing you to buckle the straps together, creating a compression system to hold gear on the front of the pack.

SLEEPING BAG COMPARTMENT
M - 68L / 58L / 48L / 38L
W - 66L / 46L / 36L

Lower zippered compartment for dedicated sleeping bag storage with detachable divider for unimpeded access to pack interior.

SLEEPING PAD STRAPS
M - 68L / 58L / 48L / 38L
W - 66L / 46L / 36L

Removable sleeping pad straps allow for quick, secure external gear attachment.

ZIPPERED HIPBELT POCKETS
M - 68L / 58L / 48L / 38L
W - 66L / 46L / 36L

FRONT SHOVE-IT POCKET
M - 68L / 58L / 48L / 38L
W - 66L / 46L / 36L

DUAL FRONT PANEL DAISY CHAIN
M - 68L / 58L / 48L / 38L
W - 66L / 46L / 36L

DUAL STRETCH MESH SIDE POCKETS
M - 68L / 58L / 48L / 38L
W - 66L / 46L / 36L

TOP LID WITH EXTERNAL POCKET / UNDER LID MESH POCKET
M - 68L / 58L / 48L / 38L
W - 66L / 46L / 36L
FEATURES

MAIN COMPARTMENT
FRONT PANEL ZIP ACCESS
M - 68L / 58L   W - 66L
U-zip access
Unbuckle quick-release lower compression straps. Dual zipper U-zip access allows bucket-style opening into the main compartment.

M - 48L   W - 46L
Side-zip access to main compartment

FULL-LENGTH VERTICAL-ZIP SIDE POCKET
M - 48L   W - 46L
