1 HIGHROAD™ SUSPENSION
  + Alloy peripheral frame and center handle stays

2 STOWAWAY TENSIONED BACKPANEL
  + Anti-Gravity™ inspired tension lumbar surface
  + Tensioned air mesh-covered backpanel
  + Dual position extended adjustable torso*
  *Single position on 22"

3 STOWAWAY VENTILATED HARNESS
  + Ventilated mesh-covered die-cut foam harness
  + Comfortable, ventilated air mesh-covered contact surfaces
  + Adjustable sternum strap with whistle

4 STOWAWAY PADDED HIPBELT
  + Padded air mesh-covered hipbelt
  + Single 25 mm webbing ErgoPull™ closure

SIZING / FIT

HARNESS FIT
The harness straps should wrap fully around your shoulders with no gaps between the pack and your back. The padded part of the harness straps should end 1”/2.5 cm - 2”/5 cm below the armpits and the sternum strap adjusted to approximately 2”/5 cm below the collarbone.
FEATURE DETAILS

TOP LIQUIDS POCKET
80L / 60L / 45L
The liquids pocket is located at the top of the luggage piece and provides quick and easy zip access to a toiletry kit or other small items. Its bellowed design collapses to ensure the full main compartment volume is available for gear and clothing. It is conveniently sized to fit a variety of 1L/1 qt wash bags or Osprey’s Airporter travel duffel and cover.

INTERNAL COMPRESSION STRAPS
80L / 60L / 45L
Use the internal compression straps to maximize packing space, organize and stabilize loads inside the main compartment. Unbuckle and loosen the straps before packing and hang the straps on the outside of either side of the pack. After packing, buckle the straps and cinch them evenly so that the buckle remains in the middle of the pack.

TOP AND SIDE LOW PROFILE CARRY HANDLES
80L / 60L / 45L
Two padded low profile handles provide an easy option to grab, pull and maneuver your bag. Heavy duty fabric on the outside protects the handles, and soft padded material underneath are comfortable and easy to use. A third handle is molded into the front of the HighRoad™ Chassis and serves as both a handle and front bumper.

LARGE ACCESS MAIN COMPARTMENT
80L / 60L / 45L
A full front panel U-zip opening provides large access to gear, and a stiffened zipper path provides structure to keep the main compartment open while packing or unpacking. Bright internal liner materials make it easy to find both small and large items stored within. For additional organization, the mesh and solid side pockets provide convenient and private storage.

DUAL FRONT DAISY CHAINS
80L / 60L / 45L
Daisy chains provide multiple attachment points for additional straps, attaching external gear and accessories.
STRAIGHTJACKET™ COMPRESSION SYSTEM
80L / 60L / 45L
Osprey’s StraightJacket™ compression system secures loads and adds stability. External compression straps and padded side walls wrap and protect the internal contents of the pack.

A  When the pack is full, attach the compression straps to the buckles at the front edge of the padded side wall.
B  When packing smaller loads, attach the compression straps to the hidden buckles along the right side of the pack, near the backpanel.
C  Cinch down the padded side walls.

CONVERTIBLE BACKPACK-STYLE CARRY
80L / 60L / 45L
The suspension on the Sojourn High Road™ Chassis provides a comfortable backpack-style carry.

TO DEPLOY THE HARNESS AND HIPBELT
A  Unzip the rear flap.
B  Remove the hipbelt and harness from behind the backpanel.
C  Tuck flap into the space behind the hipbelt to secure it away.
D  Attach the hipbelt to the two buckles located on the bottom of the bag.
   Attach the harness straps to the buckles on the side of the hipbelt.
E  Reverse the steps to stowaway the backpanel.

TO REMOVE THE HARNESS AND HIPBELT
A  Unzip the rear flap.
B  Remove the hipbelt from behind the backpanel.
C  Unclip the buckles located at the top of the harness straps.
D  Slide your hand between the harness and backpanel to break the hook and loop closure and remove the harness.
E  Reverse the steps to reinstall the harness and hipbelt.

LOCKABLE SLIDERS ON MAIN COMPARTMENT ZIPPER
80L / 60L / 45L
The main compartment features lockable zippers to secure your bag's contents. We recommend using TSA-approved locks.

HIGHROAD™ CHASSIS
80L / 60L / 45L
All Osprey wheeled travel packs utilize Osprey’s proprietary High Road™ Chassis. It features:
A  An ergonomic retractable handle with integrated vent fins
B  6061 T6 aluminum frame
C  Ultra-durable and lightweight composite base with a fiberglass matrix inlay and integrated foot/grab handle
D  Oversized, high traction polyurethane wheels with sealed bearings and a high clearance design.

DAYLITE COMPATIBLE
80L / 60L / 45L
All Sojourn Series packs are compatible with our Daylite daypack. Attach the Daylite using the four D-rings on the front of the pack.
